

AJKCDP assisted Foot Path Scheme Danna Mohri Farman Shah District Poonch

(Success Story)

Community organization of Danna Mohri Faman shah district Poonch is very vibrant and dynamic community. They constructed a PCC walking track which is financially assisted by AJKCDP, measuring around 2200 ft. This trail is linking and facilitating large no of populace of the area. Helps moving across dwellers of western and eastern side of stream. Indicated path making possible access to girls school, boys school, vet dispensary, Hospital and courts etc. Beside, serving easy access to the patients to get to Disstt hospital of Bagh and Rawalakot. This track is daily being used by more than 200 persons. Community took keen interest in construction of this track but are aspiring for a foot bridge across the stream which they regard as bloody stream who took many lives during torrential rains and floods. We will use our links to channelize non project resources to meet this demand, since, current development plan is financially constraints and facing shortage of funds but we are certain that in second phase of “Up-Scaling of Gender Sensitive Rural Community Development & Livelihood Support in AJK” to begin soon.
